Smart Launchpad Information

Smart launchpad is a pre-sale launch platform built on a multi blockchain network, Smart launchpad was inaugurated on July 10, 2022 by the digichain technology team. We have various features, create tokens, create launchpads, liquidity lock and tokens lock.

Information regarding the launchpad creation fee is as follows :

- Smart Launchpad Fee Create Launchpad = 0.5BNB.
- Smart Launchpad Fee Raised BNB = 1,8% BNB if Raised.
- Smart Launchpad Fee Raised Token = 1,8% Token if Raised.

Advantages of Smart Launchpad

We have 3 presale categories, making us a complete platform.

- **Global Presale**

  Presale that can be made by all developers without any conditions, this presale is public and open

- **Presale Partners**

  This presale is general and open, it's just that in the Presale partner category you can make conditions for contributors to hold tokens that are partnered with your project (eg your project partners with token B, and everyone who participates in your presale is required to hold as many B tokens as they have already you specify)

- **Presale B2B**

  This presale cannot be used in general, because B2B presales can be used with the approval of Digichain Technology and projects that use this feature must establish a business relationship with Digichain Technology (terms and conditions apply)
  including contributors must hold digichain as agreed by the dev token with digichain technology
